
**CONGRATULATIONS
TO
JOHANEL CACERES
OUR
2010 KEZ SCHOLARSHIP AWARD
WINNER
AWARD \$3,000**

When I first learned I was the winner of the KEZ Scholarship I was extremely surprised. I couldn't believe that I, Johanel Caceres, out of many other participants, was the winner. As a senior at FLAGS High School, I worked really hard to get good grades in order to attend a great college. However, I knew that attending a private college would be expensive for my family and me thus; this scholarship represents a miracle to me. Currently attending Skidmore College I have not had to worry financially. Throughout these four years of my college career my only goal is to work hard and graduate top of my class. Without having to worry about the financial aspect of college I can now concentrate more on my studies.

Thank you, KEZ Scholarship, for my minimizing my financial concerns and for making my goal a little more clearly and reminding me never to give up. A few years ago, college only seemed like a dream to me. Now, that I am living in my dream I want to advise other students like me to work hard and to not let the cost of a college scare you away from applying. There are many scholarships out there like the KEZ Scholarship that can help you pay.
